### SWODXA DX DINNER ANNOUNCEMENT

The SouthWest Ohio DX Association (SWODXA) has announced that "The Early Days of MFJ" will be the keynote topic for their 31st annual DX dinner®. The dinner, held in conjunction with the 2016 Dayton Hamvention®, will be on Friday, May 20, 2016, at the Marriott Hotel in Dayton. K5FLU, Martin, will be the keynote speaker. With all of the activity surrounding the international "Maker's Faire", Martins' talk with be very timely!

Martin F. Jue is founder, owner and president of MFJ Enterprises Inc. and owner of HyGain Antennas and Rotators, Cushcraft Amateur Antennas, Ameritron HF Amplifiers, and Mirage VHF/UHF Amplifiers and Vectronics.

In 1972, he began his startup company, MFJ, which now manufactures more amateur radio products than any other company in the world. In 2007 and 2012, the company was named the Oktibbeha Industry of the Year. The company began operations in a small rented hotel room in the old Stark Hotel in downtown Starkville, Mississippi. The company began marketing its products in October of 1972. The first product was a high selectivity audio filter that would enable a receiver to separate one Morse code signal from scores of other signals that were being transmitted over the radio airwaves.

For more information and to order dinner tickets, visit <[WWW.SWODXAEVENTS.ORG](http://WWW.SWODXAEVENTS.ORG)> and follow us on Twitter (@SWODXA).
