CY9C - ST. PAUL ISLAND - Update

The St. Paul DXpedition team has decided to set up "two" sites. One will be on the northeast point, a separate island where the lighthouse is located. The second site will be the more traditional site for DXpeditions known as Atlantic Cove. The distance between sites will assure their goal of operating two stations simultaneously on the same band. Many times there will be a CW/RTTY and a SSB station operating on the same band.

HAPPY BIRTHDAY

Ivan Pastre, F3AT

What is special about Ivan? Not a lot except he celebrated his 102nd birthday on April 7th. OPDX reports this week that Ivan is still active on the HF bands and 6 meters, and exclusively on CW. He is on the air every day chasing DXpeditions and new bands for his DXCC Challenge. He is at the Top of the Honor Roll and still a member of REF, ARRL, Clipperton DX Club, Union Francaise des Telegraphistes, FOC, EUDXF, Provins ARC/F6KOP and more.

Ivan might like to receive belated birthday wishes from you via email at: <ivanf3at@dbmail.com>.

Editor note: Ivan and I share the same birthdate, but I can only dream of reaching his age or achievements.

Congratulations and Happy Birthday Ivan.

★ **OC-150 - SATONDA ISL (YB9K):** A group of YB Ops will be active here April 12-16 with this callsign celebrating the 2016 Tambora Charm Festival. They will be working 20/15/10. QSL via DL3KZA.

DXtra's

★ **4X1UF - ISRAEL - 60 Meters**

Izzy reports he is regularly on 60 meters with JT65 around 2000Z. He would like to work NA and others. He normally runs just 8 watts into a DX88 High Gain vertical but can go up to 25 watts is necessary.

★ **A2 - BOTSWANA:** Nobby, GØVJG; Nick, G4FAL; Giles, MØTGV; Tony, G4DLD and Edd, GMØWED will be on the air from Tuli Block as A25UK April 13-19. They will be working 160-10 on CW/SSB/RTTY. QSL via MØOXO direct; eQSL or ClubLog OQRS.

★ **BS7 - SCARBOROUGH REEF:** *A note in OPDX this week caught my attention. Last May some BY operators indicated they were planning to activate Scarborough Reef in 2016. Nothing more was heard from these BY operators until now. OPDX directs us to the DX Engineering web site for the following:*

"The BS7 Scarborough Reef DXpedition team contacted DX Engineering looking for antennas that could offer multi-band coverage, yet were compact enough to fit on the small boats that ferried the team's supplies."

Could this mean an operation from Scarborough Reef might really happen? We await information from the "DXpedition Team."

★ **E51MRC - SOUTH COOK:** Mike, ZL1MRC will be here April 13-22 working the HF bands. QSL to home call.

★ **ET7L - ETHIOPIA:** The Russian operators have announced they will be staying until May first. They have been very active, making over 34,000 contacts since mid-January. This is not a DXpedition as they are there on a work assignment but have done a great job of being on the air with an excellent signal. QSL route is via USØLW direct. They will also upload the log to LoTW after they leave the country. OQRS will be activated later.

★ **HBØ - LIECHTENSTEIN:** A group of PA Ops will be operating 160-10 CW with some SSB and digital April 16-23. QSL all via PE1FLO.

★ **HR5/F2JD - HONDURAS:** Gerard will operate from Copan from April 16 to July 13. He will work all HF bands on CW/SSB/RTTY. QSL via F6AJA direct or REF bureau. Log will be posted at: <<http://lesnouvellesdx.fr/voirlogs.php>>.

★ **J88PI - ST. VINCENT:** Brian, GW4DVB will be on the air from Palm Island (NA-025) April 12-22. He plans to be on 40-6 SSB. QSL to home call.
